DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, Claim(s) 2-3, 21-24, drawn to an image forming system as generally set forth in Claim 1, wherein the focal length varying means comprises means for moving one or more optical elements, into and out of the optical path.

Group II, Claim(s) 4-6, 25-27, drawn to an image forming system as generally set forth in Claim 1, wherein the focal length varying means comprises an electro-optical element.

Claim 1 links Groups I and II. Claims 14-20 will be examined along with the elected invention only if one of Groups I or II is elected. The features of Claim 1, which are shown either singly or in combination in U.S. Patent Nos. 5818634, 5539554; U.S. Patent Application Publication US 2002/0113912; EP 770896 A1; and WO 0007066 A1, lack novelty or an inventive step and do not contribute over the prior art.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

For each of Groups I and II, each of the listed groups has special technical features not required for the other groups. The special technical features exclusive to each group are listed above in the listing of the groups.

3. A telephone call was made to William Bak (215-540-9216) on 8/13/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnel C. Lavarias whose telephone number is 571-272-2315. The examiner can normally be reached on M-F 10:00 AM - 6:30 PM EST.
